

Department of Defense DIRECTIVE

NUMBER 1200.16

May 30, 1990

ASD(RA)

SUBJECT: Contracted Civilian-Acquired Training (CCAT) for Reserve Components

References: (a) Federal Acquisition Regulation (FAR)
(b) Defense FAR Supplement (DFARS)
(c) DoD Directive 4100.15, "Commercial Activities Program," March 10, 1989

1. PURPOSE

This Directive:

1.1. Establishes policy, assigns responsibilities, and prescribes procedures and guidance under references (a) through (c) for Contracted Civilian-Acquired Training (CCAT) for Reserve components of the Armed Forces. This policy is intended to assist all Reserve components, and by agreement with the Department of Transportation, the Coast Guard Reserve, in developing, conducting, evaluating, contracting, funding, reporting, and selecting training by contracting with sources outside the Department of Defense.

1.2. Does not preclude the practice of obtaining approved military occupation training for individual Reserve component personnel from civilian institutions either at direct expense of the Service member or with Government-assisted tuition. (The purpose of CCAT is to increase the number of mission-qualified individuals in the Reserve components, thereby improving overall readiness. When appropriately justified, CCAT is an alternative to formal military school training and must be directly related to specific individual mobilization skill requirements or billet assignment.)

2. APPLICABILITY

This Directive applies to the Office of the Secretary of Defense (OSD), the Military Departments and their Reserve components, the Defense Agencies, and by agreement with the Department of Transportation, the U.S. Coast Guard, and the Coast Guard Reserve.

3. DEFINITIONS

3.1. Civilian Institutions. Accredited universities, colleges, community technical schools, junior colleges, and any other recognized training institutions.

3.2. Contracted Civilian-Acquired Training. All training obtained by contract with sources outside the Department of Defense for use by DoD Components.

3.3. Reserve Components. The Army National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve, and Coast Guard Reserve.

4. POLICY

4.1. Contract training is authorized when it is demonstrated that such training fulfills all military requirements, is less costly, and any of the following conditions exist:

4.1.1. The subject matter is not presented in the Military Service school system or requires extensive residence that precludes Reservists from attendance due to civilian employment considerations, or is a low density specialty not economical to export.

4.1.2. Military Service school quotas have been requested but are not available to satisfy an identified training requirement specified by the Military Service concerned.

4.1.3. Residential instruction in Military Service schools is more costly, because of travel costs, than contracting.

4.2. All DoD Components shall comply with existing laws and regulations on contracting from non-DoD sources.

4.3. Negative effects of CCAT on the mobilization training base should be

considered before contracts are awarded.

4.4. The Training and Performance Data Center (TPDC) shall serve as the centralized repository for all CCAT-required data and shall make this data available for use by all DoD Components.

4.5. The Military Services shall evaluate and approve all programs of instructions before contracting for training. Courses shall be devoted to teaching those skills needed for members to obtain required proficiency levels for a particular occupational specialty or to meet performance standards. Each course must provide an end-of-class student performance evaluation or test to verify attainment of training objectives.

4.6. Civilian institutions and industries used for contract training shall be fully accredited and approved as indicated by their inclusion in the list of "Nationally Recognized Accrediting Agencies and Associations" published by the U.S. Secretary of Education.

5. RESPONSIBILITIES

5.1. The Assistant Secretary of Defense for Reserve Affairs (ASD(RA)) shall, after coordination with the Assistant Secretary of Defense (Force Management and Personnel (ASD(FM&P))), approve and provide guidance on all matters involving contracted civilian-acquired training for Reserve components.

5.2. The Assistant Secretary of Defense (Force Management and Personnel) (ASD(FM&P)) shall coordinate with the ASD(RA) on all issues related to contracted civilian-acquired training for the Reserve components.

5.3. The Secretaries of the Military Departments shall:

5.3.1. Ensure the adequate analysis of system requirements, development of training requirements, and research of existing Military Service or prior CCAT programs before contracting for training.

5.3.2. Ensure that the CCAT program is conducted and evaluated in accordance with this Directive.

6. PROCEDURES

The following procedures are to be observed in contracting for training obtained from

non-DoD sources:

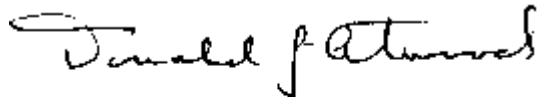

6.1. Contracts shall be awarded and administered in accordance with the FAR and DFARS (references (a) and (b)). Negotiating the contract is the responsibility of the contracting officer from the DoD Component.

6.2. Funding shall be controlled. Obligation of funds shall be in accordance with existing regulations that implement DoD Directive 4100.15 (reference (c)). Total costs shall be based on tuition, supplies, and activity and/or registration fees. Student accident liability insurance shall be provided by the civilian instructional institution to cover injuries incurred due to negligence and accidents occurring through no fault of the student. The amount of benefit provisions should be in accordance with regulatory guidelines of the Department of Labor (DoL), the Department of State (DoS), and local government agencies.

6.3. Records of CCAT shall be maintained to include cost per student per hour, name of institution, and number of students trained per fiscal year. The Military Services shall determine the format of these and other reporting requirements

7. EFFECTIVE DATE AND IMPLEMENTATION

This Directive is effective immediately. Forward two copies of any implementing documents to the Assistant Secretary of Defense (Reserve Affairs) within 90 days.

Donald J. Atwood
Deputy Secretary of Defense
